CUNY eTime Announces Vanguard Schools

The CUNY eTime Implementation Team is excited to announce that York College and Hostos Community College have been selected as our vanguard schools. As vanguard schools, the staff at both Hostos and York have agreed to commit significant time and labor to the project. Their expertise will help ensure that we have a successful implementation. We thank them for their cooperation and continued support of this important initiative.

Our vendor, SumTotal, has confirmed that system configuration is complete and meets the submitted University requirements. The CUNY eTime Implementation Team anticipates user acceptance testing (UAT) to commence in Fall 2015.

Here are some GREAT benefits of “CUNY eTime”:

- Simple and Easy to Use
- Automated Timekeeping
- Fast Payroll Processing
- Employee Self-Service Options

Stay tuned for project updates in future editions of OHRM Insights and on your Human Resources website.
